

Our Story

 ELAVON · TUESDAY, SEPTEMBER 17, 2019 ·

At Elavon we believe in the power of humanity – people helping people to propel the world forward. Our expertise may lie in payment processing and management, but it's not the card being swiped that powers our business – it's the hands that are holding it.

That's why we've spent decades devoted to improving the payment solutions industry. In 1991, our founders joined forces in Atlanta because they believed in one common truth: that the business of getting paid should be simple, fast and secure. Why? So you channel your energy on what matters most – your customers, your team, your next Big Idea.

At the counter, on the go or online – wherever business takes you, we've got a payment solution to help you grow. One-man shop? Local chain? Great! Our roots run deep from sole proprietors to mid-size businesses. Just ask John, the bagel shop owner, or Brian, the golf club director. (Yep, they're real people – read their stories here: elavon.com/perspectives.)

But our solutions can serve the complexities of big business, too: We proudly provide payment processing services to some of the world's leading brands, including BP and Hertz.

Whether you want to slash wait times, accept payments at the table or consolidate processing across environments, we've got you covered. Our selection of hardware, software and payment processors are highly flexible and can be tailored to suit your needs. Even better? Our solutions are refreshingly easy to implement and use – plus you'll get personalized support throughout the entire process. (*Psst!* That's our favorite part.)

But enough about our story – let's talk about yours. Together we can craft your next chapter – you know, the one where getting paid is easy, business is thriving and customers are happy.

We make it possible. You make it happen.
